EDUCATION

Bachelor of Technology in Computer Science & Engineering 2014 – 2018
 Maharaja Agrasen Institute of Technology CPI: **79.2%**
 Guru Gobind Singh Indraprastha University, Delhi, India

RECENT EXPERIENCE

- **Indraprastha Institute of Information Technology, Delhi (IIIT-D)**
Research Intern July, 2018 - Present
 Complex Systems Lab, Center for Computational Biology June 2017 - March 2018
Advisor: [Dr. Ganesh Bagler](#)
 - **Current Work:** My current work focuses on creation of “*BitterSweet: A resource to explore and predict taste information in small molecules*”. (<http://cosylab.iiitd.edu.in/bittersweet>)
 - **Previous Work:** During my undergraduate studies, we worked on devising new methods to predict phenotypic side effects of drugs using existing data (SIDER4). The work was culminated in the form of a research article and the code was documented & open-sourced on Github ([code](#)).
- **All India Council for Technical Education (AICTE), Govt. of India**
Research & Development Intern October 2017 - March 2018
Advisor: Dr. N.H. Siddalingaswamy (Director, AICTE)
 - **Work:** Lead a team of 5 and with a project budget of \$4600. We analysed AICTE’s employment statistics dataset and developed dynamic analytic dashboards to aid AICTE in granting approvals to higher education institutions. ([code](#))

PUBLICATIONS

Wadhwa S, Gupta A, Dokania S, Kanji R, Bagler G (2018) A hierarchical anatomical classification schema for prediction of phenotypic side effects. PLOS ONE 13(3): e0193959.
<https://doi.org/10.1371/journal.pone.0193959>

SELECTED PROJECTS

All of my projects (including the following ones) are available on github.com/sominwadhwa

- **Visual Question Answering through Modal Dialogue:** A two semester long B.Tech project based on the application of *Malinowski et al.* on v2 of the VQA dataset. Documented and made the entire process reproducible in the form of a [featured blog post](#). ([code](#))
- **Kaggle Repository:** An ongoing (2+ yrs) collection of kernels (in IPython notebooks) designed using datasets obtained from Kaggle for practise & competitions. ([github-repo](#), [kaggle profile](#))
- **TheTwitterPolice:** Basic analysis & visualization of Indian law enforcement activity on Twitter. Collected data for different cities (BeautifulSoup & Selenium), stored them in a database (MongoDB), analysed (sentiment analysis, basic statistics etc) & displayed the results graphically through a flask web-app. ([code](#))

ACHIEVEMENTS & OTHER ACTIVITIES

- **Smart India Hackathon 2017, MHRD, Govt. of India:** Led a team of 6-members advised by Dr. Sambuddha Roy (Principal Data Scientist at Microsoft, Seattle) & **won first prize** with a total cash prize of \$3000 awarded by Government of India and MAIT.
- **Best B.Tech Project:** Awarded to the top 4 major projects by the Department of Computer Science & Engineering, MAIT.
- **Outstanding Achievement Award:** Conferred by the Department of Computer Science & Engineering, MAIT among 180 students (batch of 2018).
- **Secretary, Association of Computing Machinery:** Served in the capacity of Secretary of 80+ strong team of ACM-MAIT Student Chapter during 2015-2016.
- **Blogging:** Maintain an active blog at sominwadhwa.github.io/blog to document some of my experiences & selected projects (for reproducibility).
